

Dear parents,

Nursery had another exciting week this week! A highlight of the week was the whole school music concert. The children sang the song '10 Fat Sausages' in front of the whole school. They showed great confidence and focus counting backwards and in twos. This is an amazing achievement for the Nursery children, who also behaved beautifully as an audience and made us all proud.

The children have been really busy with activities that allowed them to explore their individual interests, with the learning led by them. They loved creating their own paper aeroplanes with different designs and making their own pilots! Some of them weren't really confident at the beginning but they ended being able to teach their friends how to do them. As you already know, this group is really interested in mark making so they have been extending the ice-cream parlour role play creating order registers and their own menus. Junk modelling is one of their favourites and they have been working really hard on different projects. Some children decided to make houses for their favourite mini beasts while some others decided to make some props for their role-play, like binoculars.

This week Nursery learnt to say שלום Shalom (hello, good-bye & peace), בוקר טוב אני Boker tov, ani (Good morning, I am...), עכשיו את achshav at (now you are), לא אתה לא ata lo (You are not), נעים מאוד na'im me'od (Nice to meet you), מִיִּשְׂרָאֵל/מֵאֲנְגְלְיָה milsrael/meAnglya (From Israel/from England). Nursery began learning the song בוקר טוב Boker tov (Good morning) which you can find on the link: <https://www.youtube.com/watch?v=RAbDQApVHBk>. During their Jewish Studies lessons, the children learnt about Kosher fish and non-Kosher fish. Now they know how to identify them looking at their scales and fins.

As the year is finishing we would like to start collecting the library books on the 1st of July so please remember to return them by then. Thanks

The Nursery Team
