

Dear Parents

The children have been very excited to learn about Diwali and Bonfire Night. They used the Interactive Whiteboard to make pictures of fireworks and designed their own henna hands. The children also used toothbrushes and straws to make fireworks paintings with glitter.

The children have loved learning about jungle animals this week. We set up a jungle, under the sea and arctic area on some shelves and the children have been sorting the animals in to the right habitats. We read 'Dear Zoo', and the children drew the different animals in the story on the Interactive Whiteboard.

This week we have learnt about a new character in Jewish Studies. Avraham, we learnt that he was the first person to know Hashem and that he was the first Jewish man. We made star cookies this week as Hashem said to Abraham that his descendants would be as many as the stars in the sky. Keeping with our stars theme as it was Fireworks night on Tuesday we linked our work beautifully and created wonderful firework pictures with shaving foam and paint.

The children have been busy junk modelling outside and have been sticking their boxes together with glue and sellotape. They made rockets and robots.

Nursery began to learn how to say שלום (Shalom – hello), טוב בוקר (Boker tov – good morning), אני (Ani-I am), עכשיו (Achshav- now), את (At-you female), אתה (Ata-you male). The class is learning the song שלום שלום, which you can find on: <https://www.youtube.com/watch?v=VF-N0xSNFFw> . The class is also learning the song עליכם שלום הבאנו which you can find on: https://www.youtube.com/watch?v=mZ_nbinWkvE

Shabbat Shalom
Nursery Team
