

Dear Parents,

The children have been excited this week as we have started wrapping our finished product, called Crazy Crayons, for Enterprise Week. The children were very excited for this as we received some special wrapping paper for them. It's been so lovely for the children to have seen the final product come together.

The children have been making shopping lists, in the Island, of different products they need to live there. The children were really creative about this. The children worked together to think about what they would need. Some ideas included, water, teddies, chocolate and lots of other ideas. They really enjoyed this activity and produced some lovely writing. The children also used some special paper with an exciting boarder to write a letter to their pirate friend like in, The Pirates Next Door story.

The children have been practising their pattern making and shape naming by using the transparent coloured shapes. The children then had to take a picture of this and I had to try and guess their pattern. The children had to explain what shapes they had used.

The letter of the week this week is raish and we learnt that it makes a r sound. To remind ourselves of the sound the children we chose to have races on the astro turf. The game was to run and find the Hebrew letter, the children had to listen to the sound and run to the correct letter that was dotted around the area. The raish game is now on JI Tap and please may I ask you all to check your log ins to make sure they all work and ready for the summer holiday.
