

Dear Parents,

The children are very excited that our products for the Enterprise Week have almost sold out! There is still an opportunity to purchase the remaining items, if you have missed out. We still have a few key rings and a coaster, which can be yours, if you visit: Enterprise week — Etz Chaim (etzchaimpsa.com) Thank you for your continued support!

This week was the last of the 8-week Heads Up Kids sessions. We began the session with an activity called “Blowing our own trumpet” where the children were given their own trumpet to annotate with all the things they are good at and thinking about what makes them feel proud. They also added who helps them or supports them with this. The children then had the opportunity to talk about what stood out for them in Heads Up Kids, what they enjoyed and how it may have helped them. The class celebrated their achievements and learning! Well done to Year 3 and all the adults involved in all your hard work!

Maths

In Maths, the children continue to practise telling the time in both analogue and digital. As it is a very important life-long skill, we used a variety of resources to make the practise enjoyable. We used clocks to help us to work out the time intervals. Also, we used the number line to count on:

Please support your child with telling the time and finding the time intervals.

We are continuing to revise all the times tables. Please make sure that your child is practising their times tables by playing TT Rockstars.

English

In English, we have been looking at instructions on how to wash hands. Children have been creating posters about different types of substances which can be harmful for them such as drugs, cigarettes and alcohol. Also, children were researching about their effect on the human body.

Science

In Science, the children have been researching about the main parts of the tooth and the importance of oral hygiene in preventing many diseases.

This week we made books about our Chumash learning and we were able to explain the whole story of what we learnt. We have also made games to play with our peers about all the key words, prefixes and suffixes that we learnt in the Unit.
