

Dear Parents

The children have been so excited to come back to school and tell us all about your holidays and Sederim.

Throughout this week the children have been revisiting previously taught concepts in maths to consolidate their learning. They have been ordering numbers to 10 and 20 making sure they recognise the numerals. **This is something you could practise at home with your child if you would like to.** The children have also made different patterns with a variety of loose parts and then used the loose parts to make lovely pictures on the tables. We taught the children to take photos on the iPads and will be looking at how to upload them to Seesaw in preparation of going in to Year 1.

The children have loved our new topic of 'Transport' and have been busy writing about all the different modes of transport that they have been on before. Next week as it is Yom Ha'Atzmaut we are going to be looking at different ways to get to Israel from England and closer countries so the children are aware of the world map. **If you have any boarding passes or anything to do with aeroplanes please can you send them in next week.**

I am Ms. Pieters and I am excited to be helping Reception learn their Alef Bet this term and preparing for the Alef Bet party. This week we started to learn how to read and write the word שַׁבָּת (Shabbat), learning the letters kamatz and patach (that make the 'uh' sound) and shin. We are preparing for Shabbat UK and are all looking forward to Yom HaAtzmaut next week!

Our week's attendance was 95.83%. Weekly attendance needs to be over 96%.

Shabbat Shalom

Reception Team
